

Guests must be accompanied by a LONG-RANGE MEMBER. The fee is \$20 if shooting their own rifle. Spotters/observers need not pay, but must sign guest waiver.

Approach Procedure if no firing heard: Drive to the end of the road, U-turn at the turnaround, drive back, and park by the second (upper) shooting area (the elevated shooting area known as "The Nest"). This is so you can verify that there are no empty vehicles anywhere – meaning potentially someone down range.

Approach Procedure if firing heard: Drive to just short of the first (lower) shooting area, stop and honk horn. Wait until a horn is heard in response and the firing ceases, then proceed.

If a vehicle is approaching, shooters shall make the line "COLD" until the vehicle has completed the turn-around and parked.

NO SHOOT SITUATIONS: If a vehicle is passing the firing line; if there is an empty vehicle; anything **Orange** spotted (we don't allow orange targets so potentially a hunter); animal activity; any unsafe situation. YOU ARE ACCOUNTABLE FOR EVERY ROUND FIRED!

Shoot within the Left & Right Lateral Limits from both the upper and lower shooting areas.

Engage targets Near to Far! Example: if you are not seeing impacts at 865 yards, you have no business shooting at 1,000 yards.

Know your limits, your equipment's limits, and the conditions' limits and DON'T SHOOT BEYOND THEM.

Heavy Magnums (300WM and above) shoot only PINK Targets! These are heavy armored targets all can shoot at, but the only targets if shooting Magnum.
