### **Truing Lane Notes:**

- **Truing Bar locations are designated as follows.**
  - The number on the Blue and Yellow Designator equals the distance as denoted below.
  - 3 = 300 yards, 6 = 600 yards, 7 = 700 yards, 8 = 800 yards, etc.
    - Truing Lane goes incrementally from 300-1000 yards.
    - Total of 8 “Truing” locations spaced every 100 yards.
- Most Truing Bars are accurate to within + or - 1 yd of their designated range, except the following:
  - 400 Truing Bar is – 413
  - 500 Truing Bar is – 503
  - 900 Truing Bar is – 905
- All other Truing Bars are accurate to within + or - 1 yd.
- **Truing target sizes.**
  - There are 2 sizes of targets at each truing location.
  - Each truing target has a 10“x 10“square.
  - Each truing target also has a “T” that is .2 Milliradian (.7 MOA) tall.

### **Magnum Rated Targets:**

- **Currently only the following targets are to be shot by magnum caliber rifles.**
  - Any pink target...there are only 2-3. Sorry.
  - The A1st style targets (square body w/ round head); located at:
    - 1 target at Juliet.
    - 1 target next to the right side of the 900-yard Truing Bars.
- **Coming soon...a proper magnum target package.**
  - Until then, shoot small caliber projectiles.
    - .223's and 5.56's are good to 800-900 yards.
    - 6CM, 6.5 CM, .308, etc. will make it all the way.
